LIST

MATERIAL SAFETY DATA SHEET

I. PRODUCT IDENTIFICATION

PRODUCT: Duvall 7000, 6000, 1252, 5600, 4900

MANUFACTURER: Duvall Chemicals, Inc.
2890 Five Springs Rd.
Dalton, GA 30720

TELEPHONE: Business Hours: (404) 277-2555

II. HAZARDOUS INGREDIENTS

<u>MATERIAL</u>	<u>%</u>	<u>HAZARD DATA</u>
METHANOL	.08-1.0%	None because of large excess of water
MINERAL SPIRITS	3-3.5% Depending on Product	
AROMATIC PETROLEUM OILS	6-12%	Can be considered carcinogenic. Aromatic Petroleum Oils have produced cancer in lab animal experiments with prolonged exposure.

III. PHYSICAL DATA

APPEARANCE	Light tan, viscous liquid
VISCOSITY	75-100,000 cps
ODOR	Slight, chemical
pH	8.5-9.5
SOLUBILITY IN WATER	Miscible but solids precipitate on dilution
BOILING POINT	Variable Prox. 95°C
VOLATILES (% by Vol.)	45-55
SPECIFIC GRAVITY	1.07
DENSITY	9 Lbs.

IV. FIRE AND EXPLOSION DATA

Non-Flammable. In case of fire in area of storage, use any type of extinguisher.

V. HEALTH HAZARD INFORMATION

The principal volatile component is water. Minor volatile components are Methanol, Aromatic Petroleum Oils and Mineral Spirits. (See II Above).

SKIN CONTACT:	Minimize length of exposure, wash off with soap and water.
SKIN ABSORPTION:	Not material, provided washed off within a reasonable time.
EYE CONTACT:	Flush with plenty of water.
INGESTION:	Do not induce vomiting. Give water. Call Physician.

VI. REACTIVITY DATA

Stable in most environments. If frozen, thaw at room temperature.

VII. SPILL OR LEAK PROCEDURES

Flush with water as soon as possible after spill occurs. Creates a sticky mess. Use care to avoid falls. Dried film can be removed by use of 1-1-1 Trichlorethane.

WASTE DISPOSAL:	Flush to ground if possible. If not, soak up with compound such as sawdust and shovel out.
-----------------	--

VIII. PERSONAL PROTECTION INFORMATION

No special precautions except such as rubber gloves. Potential sticky mess; However, high viscosity makes it easy to control.

IX. SPECIAL PRECAUTIONS

Normal cleanliness and hygiene should be observed. Avoid freezing. Keep container closed to avoid evaporation and "skinning" on surface. These products are not restricted according to the Dept. of Transportation and IATA regulations.
